

Vote no on the changes to the petition from the Consumers Bankers Association regarding the WI No Call Program/Law.

I own and pay for my phone-and I have the right to not have those calls come onto my phone -when I only call a business for their hours-then you wish to give them 90 days to continue calling me?

I think it is wrong and I can't believe you would allow those calls to consumers, when over 1,000,000 people don't want any telephone solicitations!!

I think the law is written and should stand the way it is now!

Vote now and let my telephones remain silent!
